MAY HAVE ANOTHER COUNTY

Move Being Made to Divide Brevard's Broad Acres—Rumor Says That the Name Will be Flagler.

The Cocoa and Rockledge News of Thursday says that the rumor of a new county, to be made from the lower part of Brevard has materialized in the shape of a notice published in the Fort Pierce News, to the effect that application will be made to the next legislature for the enactment of a law creating a new county, which shall comprise all that part of Brevard county lying south of the line dividing townships 20 and 31 to the medial line of the St. Sebastian river, down to the middle of said river to its confluence with Indian river, thence southerly along the east shore of the said river to the first named township dividing line—20 and 31—thence to the Atlantic ocean.

The proposed division will leave Brevard county about 66 miles long, while the new county, which rumor says will be named Flagler, will be about 42 miles long. If the division is made, each county will contain about the same area of land, there being nearly forty townships in each division, as proposed.

Old Farmer Hopkins.

Theater goers differ largely in taste. Some enjoy drama, some orchestral music, some band music, some are appealed to more strongly by specialties, songs, dances, etc., others are reached through the eye, beautiful scenery, elaborate stage settings, elegant costumes, correct colorings and artistic groupings please them above all else. The attractive gathering together and presenting of all these things in a first class manner is the one that will please everybody. It is said that the Frank S. Davidson's new "Old Farmer Hopkins" company has done this very thing and is reaping a harvest. They will be at the Daytona Opera House for one night only, Monday, Feb. 27th.

At the Opera House.

Prof. Hammet's trained animal and bird show attracted a large crowd at the Opera House last night. The show was all that was advertised and the audience was much pleased at the many tricks of the performing birds and animals. The performing canaries and chickens were especially good.

Musical at the Casino.

For the first time Shelton and McClean made their appearance at Keatings Casino last night. This talented musical team is from Russellville, Ky. They have manufactured an instrument of their own called the "Aquarian Chimes." It is a large frame and encased within two rows of glass bottle of different sizes, filled with liquids of different kinds. The quality of music that these young men presented with this eccentric instrument was surprising. They were strenuously applauded.

A dance was given after the show which was well patronized. Mrs. Spangler's orchestra furnished the music.

Mrs. Minor Miliken, Misses Marguerite Park, Clara J. Noyes, Cincinnati; G. W. Shannon and wife, Chicago; F. Odenbach and wife, E. Braynor, B. Bragynor, Rochester; O. L. Pattello, Atlanta; B. L. Simpson, Macon; Mrs. Belle Patterson, Mrs. L. N. Patterson, Pittsburgh; I. M. Whitton, Plainfield, N. J. are guests of The Despland.

M. J. Brennan, Springfield, Mass.; Dr. A. H. Vance, Springfield, O.; O. P. Keeler, Kertland, Ind.; C. B. Husseman, Urbana, O.; H. C. Goodman and wife, Columbus, O.; J. C. Van Ripper and wife, St. Louis; Mrs. H. Vissering, W. B. Gibbs, Mrs. H. R. Andrews, Chicago; Miss M. W. Putnam, Danvers, Mass.; W. C. Shepherd and wife, Wilkesbarre, Pa.; Mrs. R. A. McCrady, Pittsburg, are guests of The Ridgewood.

An Old Favorite

ROBIN ADAIR

By Lady Caroline Keppel

WHAT'S this dull town to me?
Robin's not near—
He whom I wished to see.
Wished for to hear;
Where's all the joy and mirth
Made life a heaven on earth?
Oh, they're all fled with thee,
Robin Adair!

What made the assembly shine?
Robin Adair!
What made the ball so fine?
Robin Adair!
What was there?
What, when the play was over,
What made my heart so sore?
O, it was parting with
Robin Adair!

But now thou art from me,
Robin Adair!
But now I never see
Robin Adair!
Yet him I loved so well
Still in my heart shall dwell;
O, I can never forget
Robin Adair!

Welcome on shore again,
Robin Adair!
Welcome once more again,
Robin Adair!
I feel thy trembling hand;
Tears in the eyelids stand,
To greet thy native land,
Robin Adair!

Long I never saw thee, love,
Robin Adair!
Still I prayed for thee, love,
Robin Adair!
When thou wert far at sea,
Many made love to me,
But still I thought on thee,
Robin Adair!

Come to my heart again,
Robin Adair!
Never to part again,
Robin Adair!
And if thou still art true,
I will be constant too,
And will wed none but you,
Robin Adair!

A QUESTION.

Little Lucy Locket.
She hasn't any pocket.
No place to carry anything at all.
While Lucy's brother Benny
He has so very many
In which to put his marbles, top or ball.
That when he's in a hurry
This sometimes quite a worry
To find the one he wants among them all.

Now, why should Lucy Locket
Not have a little pocket?
A handy little pocket in her dress?
And why should brother Benny
Who doesn't need so many
Be favored with a dozen, more or less?

The reason, if you know it,
Be kind enough to show it.
For really 'tis a puzzle, I confess.
St. Nicholas.

Why He Was So Kind.

She—It was very kind of you to give up your seat to me when the carriage was so crowded.
He—Not at all, miss. We men are getting a bit tired of being accused of only giving up our seats to the pretty girls. That's what it is.—King.

Branded on His Memory.

There is a corporal in one of the best infantry regiments in the regular army who has one lesson branded on his memory with words of fire—the lesson that no excuse can be framed or uttered by any soldier for being untidy or unclean.
The corporal was going down the line on a tour of inspection and noticed a corporal with soiled gloves. He said: "Corporal, that is setting a bad example to the men, wearing soiled gloves. Why do you do so?"
"I've had no pay for three months, sir, and I can't afford to hire washing done."
Taking from one of his pockets a pair of beautiful white gloves the corporal handed them to the corporal, saying: "Put on these gloves. I washed them myself."—Pittsburg Post.

A Rare Coin.

Small Boy (who has become interested in coin collecting)—Papa, what is the rarest coin you know of? Papa (sadly)—A twenty dollar gold piece, my

A Recompense.

Young Edward, aged six, was quite tired of staying in the house. His mother was ill and had tried to keep him in the room with her because her room was warmer than his playroom, but his toys were all in the playroom, and he became restless to go to them.
"Goodbye, mamma," he said. "I will come back in a thousand years."
"I will be dead and buried by that time, son."

The little fellow stopped a moment with his hand upon the door, and thinking of the creed he replied:
"Never mind, mamma; you will rose again."—Lippincott's Magazine.

On Hand.
The bell rang, the car stopped. The nervous young man stumbled down the aisle and on to the platform. Then he rushed back.
"I left a pair of gloves on this seat," he sharply cried. "Where are they?"
There was a little confusion among the passengers.
Suddenly the young man straightened up.
"By gum," he cried, "I've got 'em on!"
Then he rapidly retreated, and the passengers audibly smiled.—Cleveland Plain Dealer.

Great Relief.

As the postman passed the deserted lot seven masked men sprang out and began to pummel him unmercifully.
"Help! Help!" shouted the postman. "What are you trying to do to me?"
"Rob you!" retorted the leader of the wicked gang.
"Thank heaven! I thought you were going to give me a college initiation."—Chicago News.

A Penalty of Greatness.

"Why don't you do something that will cause posterity to remember you?" "Don't care to," answered Senator Sorghum. "I have no desire to have all my faults and follies paraded before the public in an edition de luxe of secret memoirs."—Washington Star.

Changed.

She—I thought the Blanks said that uncle of theirs had such ill bred manners they couldn't invite him to visit them.
He—They did, but since he has fallen into a million they have decided that he was only eccentric.—Detroit Free Press.

Failed.

Dixie—Of course they gave you ether, so you didn't suffer any pain by the operation?
Bingley—Unfortunately I came to before the bill was presented.—Boston Transcript.

A man must be both stupid and uncharitable who believes there is no virtue or truth but on his own side.—Addison.

Bazaar at the Armory.

The bazaar held at the Armory last night by the ladies of the Baptist Church proved a greater financial success than was anticipated, over \$100 being realized.

The prettiest table was that presided over by Mrs. C. Withers, who offered for sale shell and fish scale articles, all of which were made by herself. Mrs. Withers has a number of articles left on hand which are for sale at her residence on N. Beach street.

Mr. Holmes gave auto rides at ten cents each and helped swell the receipts materially.

Mrs. Shoemaker, who had general charge of the bazaar, desires to thank the tourists who generously assisted by furnishing music and for their liberal patronage.

Mr. and Mrs. F. H. Gage, Mr. and Mrs. E. W. LaCroix and Mr. W. B. Phinney, all of Lynn, Mass., are located at The Ormond for the remainder of the season, repeating a last year's stay. Mr. Phinney has his auto with him and will enjoy to the full the excellent drives around Ormond.

A SERIES OF YACHT RACES

Would Prove of Much Interest To Visitors and Launch Owners. Races Last Year.

What is the reason we cannot have a day of yacht racing such as was given on the river last year? We have the facilities here, a beautiful river and an excellent course for racing. There are thousands of people who delight in aquatic sports in our city, and very little is being done for their amusement in this line.

This is not because the owners of launches are not ready to race, for such men as Fred. Sunderman, T. B. Collins, Harry Thompson and D. P. Merrill, owners of fast motor boats, and many others have always shown a willingness to race anything that came along, and several have been heard to say that they would run if they did not win, and knew there was no chance for winning. Still, the race might be a handicap affair, as it was at Palm Beach, and then there would be an equal chance all around.

An owner of one of the fastest boats here says that they may handicap his boat as much as they please, he will enter any race that promises fun for the people, and doubtless this spirit pervades all launch owners.

Then why not have a race, or several of them? Simply because it requires some one of influence and leisure time to raise a little money for prizes and manage the affair. The city is full of people and nearly all our citizens are as busy as can be looking after the comfort of those in their care. But this day of sports is almost a necessity and it can and should be attended to at once.

Last year several races were held here but the events were not sufficiently advertised and few people witnessed them. The DAYTONA NEWS will see that races are advertised thoroughly if advised of the date of races beforehand.

The circulation of the DAILY NEWS is steadily increasing and on Monday passed the 500 mark by a clear majority of 100. Monday's edition of the paper was exhausted fifteen minutes after the last form was off the press. 600 for a daily in a city the size of Daytona is a very creditable showing and is evidence that the public appreciate our efforts. It shall be our aim to build the circulation to a still higher figure and to accomplish this will make it better and better each day.

Mr. Jones—My daughter is only eighteen. You had better wait until she is older. The Lover—Well, I've waited two years for her to get older, but she still stays at eighteen.—Judge.

The Challenger.

The Challenger, owned by W. Gould Brokaw, established a speed record at Palm Beach during regatta week, making a mile in 2:01 2-4, a record which was received everywhere with enthusiasm. Since that time the boat has done better. This was Tuesday morning, February 8, when she made a record of a mile in 2:02 in a speed trial on Biscayne Bay, at Miami.

Mr. Brokaw had the Challenger out on several speed trials on Lake Worth. In one run the boat made the mile in 2:03 2-4, and another in 2:03 1-5, the best of these two records being 1-5 seconds better than her former best record here. There was also a four-mile speed trial, in which the Challenger averaged 2:03 3-20 to the mile, the four miles being covered in 8:12 3-5.

Mule Vs. Automobile.

Up in Missouri, where the mule is held in high esteem, they are of the opinion that the automobile should take a back seat and allow the mule to come to the front. A postmaster in that state, in speaking of the rural mail delivery, says:

"The more Missouri sees of the automobile, the more it likes the mule. The Missouri bird of paradise will go where no auto would dare to tread. He will haul you over fifty-three clay hills on time or kick holes through them and go under. Nothing will discourage a mule. You never have to stop and fix him. You don't have to take a monkey wrench and a kit of burglar tools along.

A good stout mule is the only instrument that he has any respect for. There's no danger of his blowing up. Difficult roads only inspire him to greater efforts. After colliding with a tree or a brick house the auto is sent to the junk house, but the mule is only brighter and gayer and stronger after each collision; it's the thing that he runs up against that goes to the scrap pile. A mule eats more than an automobile but the mule gives greater results. Stick to the mule."

THE MOOD OF MIGHT.

There is a Peculiar Potency in Belief in One's Own Power.

Achievement is less a matter of natural ability and external circumstance than of the habitual mental attitude. Success, happiness and accomplishment of all kinds are born of confidence, buoyancy and faith. Discontent, self distrust and hesitancy are all cankers, eating into every part of life and destroying force and perfection at every point.

There is a peculiar potency in belief in one's own power. This need have no element of egotism in it, only a steadfast trust in oneself. Yet even childish self conceit is better than weak depreciation of self and the palmed muscle resulting. To believe in one's own success, to think and act always with confident assurance that it is possible to do anything and all things that one desires to do—such an attitude buoy up the spirit, sends the currents of energy and skill pulsing through the body and makes the maximum of accomplishment possible.

There is nothing of this nature that will make hard work unnecessary. But hard work, vivified by the electric current of faith and triumphant confidence, will be multiplied in effect as if by magic. The human mechanism in all its intricacies and potencies is operated by a mental and spiritual dynamo the essence of which is faith, confidence and love. Why let life be operated at the minimum when deliberate, persistent effort can awaken the forces which will make each one the full man or woman he or she was meant to be?—Rocky Mountain News.

FORTIFICATIONS.

They Play but a Secondary Role in the Defense of States.

A fortress spells immobility and dispersion. We should therefore look askance at it until proof is given that it has a definite purpose to fulfill in a reasoned scheme of strategy. We must not allow ourselves to be led away by the glamour surrounding a heroic defense. We must look to the end and leave panegyrics to poets. We must, in short, regard all fortification as an auxiliary and nothing more. A fortress, because it is a fortress and because it is ours, is not necessarily an advantage and may be the reverse. If we gain battles we gain the enemy's fortresses; if we lose them he gains ours, whether they are in the interior or upon the sea. In each case the larger the garrison the greater the disaster. Fortresses, and, in fact, all fortifications, have never played anything but a secondary role in the defense of states, and no nation has ever yet been saved by them. They can as auxiliaries occasionally assist an army and they can aid naval capital, wisely invested and wisely used, to bear splendid interest, but they can never establish moral superiority when once it is lost nor create it by the virtue of existing. Over the portals of the fortress or harbor of refuge should be written in the largest and blackest of characters the words that Dante discovered over the gates of hell: "Military Cor. London Times."

VALOR AND HEROISM.

Proof That the Real Brand of It Exists in South America.

"Every country has its heroes, and it is refreshing to read something of the heroic in the history of the countries south of us," said a thoughtful man. "In a history of South America attention is called to a number of things which tend to show that the popular estimate of valor and heroism in that section of the world may not be altogether the correct one. It is related that once the Peruvian monitor Huascar fought against three Chilean ships. After both Admiral Grau and his flag lieutenant were killed Captain

Aguirre took command, was killed, and then succeeded by Captain Carbajal, who was put hors de combat by a shell. The command devolved then on Lieutenant Rodriguez, who was killed; then on Lieutenant Palacios, who was disabled, and finally Lieutenant Gareyon, with the ship on fire, three feet of water in the hold and with a loss of half his officers and crew, was forced to strike his flag. On July 23, 1879, the Huascar was in action against the Chilean ship Abtao. Torpedoes at that time were not much understood, and one, being fired from the Huascar, through faulty mechanism returned back straight upon the ship. Seeing this and knowing that if the ship was struck she must sink, Lieutenant Diaz Canseco jumped overboard and in the water with his hands altered its course just before it came in contact with the ship.

Tricked the Stamp Fiend.

Stamp collectors are delighted when they secure a specimen which was issued before some mistake in printing was detected. During the Buffalo exposition the government issued a stamp to commemorate the occasion which depicted the Empire express train. A practical joker cut out the central part of one of the stamps which contained the train and carefully replaced it so that the train was in an upside down position. This he pasted on an envelope and mailed it to a friend who was a rabid collector.

The practiced eye of the stamp fiend at once discovered the misplaced position of the train, but did not notice the deception, and the collector was almost wild with joy until he offered it for sale, when he was informed that it was not a "rare" but a "cut out" stamp he preserved.—New York Press.

Eggs.

It is not only eggs that vary in name without varying in quality. The present writer was once told when hesitating between "fresh eggs" at ten a shilling and "good breakfast eggs" at eight a shilling or something to that effect that these two brands were precisely the same, but had to be sold as two qualities because no customers would buy eggs at a shop where only one quality was advertised. That may or may not be so. The fact remains that there are many qualities of eggs known to all housewives before we get down to what a late comedian termed briefly "eggs."—London Chronicle.

Where Wealth Is Woven.

At Gumbel a man's wealth is reckoned first by the number of slaves he owns, next by the number of wives and then by the number of chests, empty or otherwise, he possesses. To give security to these chests, locks of American make are in great demand all over the country, and keys in large numbers are worn by the natives as the outward symbol of abundant property, though it is quite likely that many of the chests are entirely empty.

Then He Did Walk.

Little Brother:—Can't you walk straight, Mr. Mangle? Mr. Mangle:—Of course I can, my little man. Why do you ask? Little Brother:—Oh, nothing, only I heard sister say she'd soon straighten you up when she married you. And ma said she'd help her.

Woman.

Woman has been defined as "an essay on goodness and grace in one volume, elegantly bound." But she doesn't like to be put on the shelf all the same.

Relations are the cause of most of the friction that takes place in social life. —A. C. Plowden.

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29° 30' north and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high Pamlico land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded streets and boulevards. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overhang the street and walks, and among these are interposed tall tropical palm trees, whose broad fronds, fragrant bays and coral-berried holly, and many other varieties, while in many places the wild grapes, the trumpet vine and the anemone-like climber and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadam and shelled roads and streets, rendering it the

Wheelman's Paradise
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long distance cycling and driving of automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding greatly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply
which is derived from numerous flowing wells, of which there are probably 200 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze and Goodall, Seabreeze and Silver Beach,

which are properly a part of the town and population.

Daytona Beach
lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect in comfort as Daytona beach.

Automobile Race Meet.
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racetrack for America.

At low tide the beach is barred for 100 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged yachts speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-ringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the sand bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at oblique, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, an venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula
lying between river and ocean is one-half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, a opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature
at Daytona has been the yearly improvement in the style and value of the buildings that are being erected or homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheephead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamey fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the ocean are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.
